B. Documented information package:

Our documentation kit contains sample documents required for API Q2 certification as listed below. **All documents are in MS-Word/Excel files and you can edit them.** You can make changes as per your organization's need and **within few days your entire documents** with all necessary controls will be ready. In the API Q2, documented information (procedures, SOPs, etc.) are required a few places only. But for making the system better, we have provided many editable templates from which a user can select templates as per their own requirement and make some minor changes in them to make own system. Two types of documented information are provided in this kit, as listed below:

1. **Maintain documented information (Scope, Manual, etc.)**
2. **Retain documented information (Forms / Templates)**

Under the main directories, further files are provided in MS Word/excel document as per the details given below.

1. API Manual:

It is a sample copy of API manual having clause-wise details of how API specification Q2 system is implemented. The API manual is tier-1 of API specification Q2 documents and covers list of procedures as well as overview of organization. This manual has covering company profile, amendment sheet, index, clause-wise details as per API specification Q2 for implementation, sample policy and organization chart.

Chapter-3.0 USER FUNCTION

3.1 Hardware and Software Requirements

A. Hardware

- Our documentation kit can better perform with the help of P4 and higher computers with a minimum of 10 GB hard disk space.
- For better visual impact, you may keep the setting at high color.

B. Software

- Documents are written in MS-Office 2007 and Windows XP programs. You are, therefore, required to have MS-Office 2007 or higher versions with Windows XP.

3.2 Features of Documentation kit

- The kit contains all necessary documents as listed, and complies with the requirements of system standards.
- The documents are written in easy to understand English language.
- This kit will save much time in typing and preparing your documents at your own.
- The kit is user-friendly to adopt and easy to learn.
- The contents of this kit are developed under the guidance of experienced experts.
- The kit provides a model of the management system that is simple and free from excessive paperwork.
